

UPPER DEN CARRIAGEWAY WORKING GROUP

18 April 2024

Dear Councillor

NOTICE IS HEREBY GIVEN that a Meeting of the Upper Den Carriageway working group at which your attendance is summoned, will be held at on **Tuesday, 23rd April, 2024** at **6.00 pm** to transact the business specified in the Agenda as set out.

Iain Wedlake
Town Clerk

Distribution: Councillors , L Chasteau, D Comer, M Jackman and R Phipps

For information – to be taken as read:

- 1** ***Declarations of Interest** – Members are reminded that they should declare any interest in the items to be considered and are also advised that the timescale to alter their stated interests with the District Council's Monitoring Officer is 28 days.*
- 2** ***Items requiring urgent attention** – to consider those items which, in the opinion of the Committee Chair, should be considered by the meeting as matter of urgency (if any). To be taken at the end of the meeting.*
- 3** ***The Freedom of Information Act 2000** deems that all information held by this Council should be freely available to the public unless it falls under one of 23 exemptions.*
- 4** ***The Data Protection Act 2018** precludes this Authority from publishing the names, addresses or other private information of individuals unless written permission is given by the individual for such details to be made public. Therefore, where necessary, personal details have been removed from the papers attached to ensure that information held is available, but individuals are protected.*
- 5** ***Mobile telephones** Councillors and members of the public are requested to ensure that mobile phones are switched to 'silent' during the meeting to avoid disruption.*
- 6** ***Recording** this meeting may be filmed or audio taped.*
- 7** ***Public Participation:** Members of the public will be given an opportunity to address Councillors present at this meeting regarding agenda items, at the discretion of the Chairman The comments of members of the public and electors of the parish who speak before the start of the meeting or following the close of the meeting will not form part of the Minutes of the meeting.*

A G E N D A

PART I

(Open to the Public)

1. **Election of chair**
2. **Election of vice chair**
3. **Objective of working group**

To investigate parking options for the upper Den carriageway whilst it is closed during the summer season (May-September). To be comprised 4 councillors preferably of differing views and parties (to achieve “balance”) with the ability to co-opt outside partners if required. The objective of the working group being to report back to full council on 11th June with a range of detailed options to be considered in time for a resolution to be passed and reach the next Teignbridge HATOC meeting on the 18th of July 2024 to give them time to investigate with sufficient time to enable a May 2025 implementation. Costs should be confined to officer time at TTC with some input from DCC highways to prepare any necessary drawings using our Parish Online system.

4. **To review and consider the DCC HATOC report of 25th July 2022** (Pages 5 - 10)
5. **To consider various options to mitigate the DCC HATOC report issues**

Speed limit 10mph .

Camper van / motor home exclusion from Parking.

The reasoning behind banning them from Parking, obstruction of the highway, obstruction of vision at pedestrian crossing places.

Illegal waste disposal into storm water drains.

Speed humps /road markings /road signage.

visibility at crossing places.

Benefits and disadvantages of the proposal, both safety and economical.

6. **Next steps and timeline**

To agree the steps required to meet the objectives.

7. **Date of next meeting**

Suggested A Thursday daytime and to ask DCC highways officer to attend.

Teignbridge Highways and Traffic Orders Committee
25 July 2022

Proposal to reopen the Upper Carriageway in Teignmouth over summer periods

Report of the Director of Climate Change, Environment and Transport

Please note that the following recommendation is subject to consideration and determination by the Committee before taking effect.

Recommendation: It is recommended that the Upper Den Carriageway remains closed through the summer period.

1. Background/Introduction

Teignmouth Town Council have requested that the Upper Den Carriageway remains open through the summer months. Currently it is closed for vehicles between 1 May and 10 September each year. During the period when it is open parking is controlled by pay and display machines.

2. Main Text/Proposal

The Upper Den Carriageway in Teignmouth has been closed to motorised traffic over an extended summer period for a number of years.

The road lies between the Den and the beach. Both the beach and the open space in the Den area is popular with visitors and family groups. There are a number of uncontrolled crossing points on the road, providing the main route between the town and the beach.

The Town Council have now proposed that the road be reopened during the summer months in order to add additional parking capacity in the town. The on-street parking on the road is controlled by Pay and Display machines when it is open to vehicles.

The proposal would increase on street parking revenue for the County Council, currently there is no revenue over the summer period when the road is closed. However, it does raise safety issues and would conflict with some of the county councils policies, as set out in section 6.

A number of events, such as the Teignmouth Air Show, take place over the summer period, which require the road to be closed on specific dates. If the road is reopened during the summer, it would have to be closed on specific dates for these events.

It is considered that it would be confusing for residents and visitors, who have been able to cross this road freely during the summer for a number of years.

3. Options/Alternatives

The options are:

- (a) Allow the road to open during summer periods.
- (b) Retain the current road closure over summer periods.

4. Consultations/Representations/Technical Data

The proposal has been made by Teignmouth Town Council and supported by the local Member and Teignmouth Chamber of Trade, who all favour the additional parking that the proposal would provide over the summer period. Previously the town council has favoured closing the road over the summer period and has raised issues of camper vans and the emptying of waste into highways drains, which drain directly onto the beach.

The proposal is opposed by Teignbridge District Council for the following reasons:

- (a) There are safety concerns as the multiple crossing points on this road are used by large numbers of families, and others. The District Council feels that the road could not be reopened unless formal crossing points are added.
- (b) The “feel” of the area would be changed, as it would be dominated by vehicles rather than pedestrians, and this could impact visitor decisions.
- (c) It could affect the safety of the resort team, who use the area in the summer for bin cleaning and other roles.
- (d) It may prevent the use of the café seating associated with the former Beachcomber Restaurant, which it is proposed to reopen after a number of years, and affect its viability.
- (e) Campervans and emptying waste into highway drains could affect the excellent bathing water classification, leading to the loss of the prestigious blue flag.
- (f) It contravenes the County Councils and District Councils policies of promoting less polluting modes of transport and creating areas for pedestrians.

Any permanent change to the Traffic Regulation Order that prevents access during the summer months would need to be advertised.

5. Financial Considerations

The proposal would increase the revenue from on street parking that the county council receives. However, if changes in the road layout are required, reducing the number of crossing points and introducing formal crosses, there would be a substantial extra cost.

6. Environmental Impact Considerations

Devon County Councils Transport Strategy for the Market & Coastal Towns and Rural Area has five transport priorities, these are:

- Assist in supporting existing and future development of the towns.
- Work with the community to demonstrate a low carbon approach to travel.

- Improve accessibility by developing a core bus and rail service supported by community transport.
- Make Devon 'the place to be naturally active' through investment in the leisure network.
- Develop an approach to parking policy which supports the vitality of town centre.

Teignmouth Town Council have stated that the road closure would have a positive impact on trade in the town.

Devon County Council declared a climate declaration and signed a Climate Declaration in May 2019. A key component of this is to support schemes that achieve "Reduction in road capacity where this supports sustainable travel or improves air quality". It is considered that reopening the Upper Den Carriageway in summer periods would conflict with this policy.

7. Equality Considerations

Opening up the road would allow additional vehicles to park in the town centre area, and availability of parking has been an issue in the past. However, it would prejudice against pedestrians walking to the beach, which would include many family groups.

8. Legal Considerations

The lawful implications/consequences of the proposals/recommendations/proposed course of action have been considered and taken into account in the preparation of this report.

When making a Traffic Regulation Order it is the County Council responsibility to ensure that all relevant legislation is complied with. This includes Section 122 of the Road Traffic Regulation Act 1984 that states that it is the duty of a local authority, so far as practicable, secures the expeditious, convenient and safe movement of traffic and provision of parking facilities.

9. Risk Management Considerations

Currently the road is closed for vehicles over an extended summer period, and both visitors and locals will have been used to it being closed. There is a risk that people will not expect vehicles to be using the road during the summer months, and conflict could occur.

This road is used by pedestrians, including family groups, to access the beach area. There is an increased risk of conflict if the road is reopened.

It is intended that the former Beachcomber restaurant will reopen, currently the outside seating area is on the opposite side of this road. Staff at the restaurant would have to regularly cross the road with trays of food and drinks to access the outdoor seating area.

If drivers circulate around the Upper Den Carriageway, Den Crescent and Powderham Terrace, looking for available parking spaces, this could have a significant impact on traffic congestion in the town during the summer.

10. Public Health Impact

There is some concern that, if camper vans are parked on this road in the summer, waste material could be emptied into the highway drainage system. This system discharges onto the beach, and concerns have previously been raised about bathing water quality.

11. Summary/Conclusions/Reasons for Recommendations

The safety, environmental and policy issues have led to a recommendation that the road remains closed during the summer period.
